

WETLANDS STORY

What are wetlands?

Color in the wetland areas on the map.

What is the percent of wetlands in your state? _____

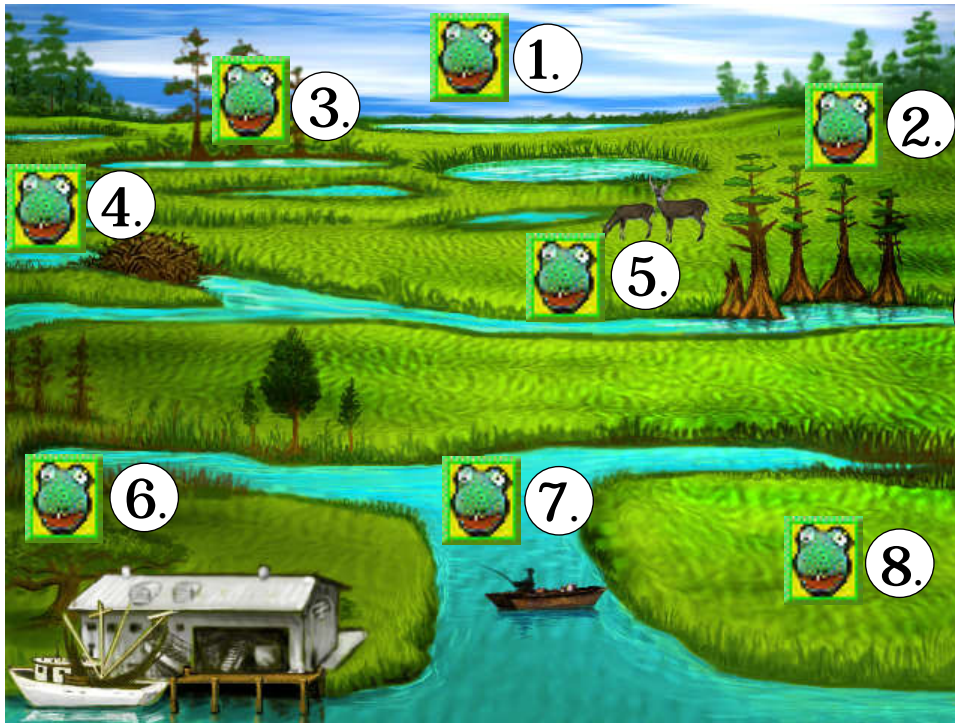

Describe what saltwater wetlands look like.

Match the freshwater wetland with its definition.

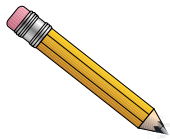

Swamp • soft, water-logged ground with several feet of peat

Bog • area flooded with water all or part of the time

Marsh • near a river or stream, covered with water
most of the year

1. Draw the flyways on the map that migratory birds use.

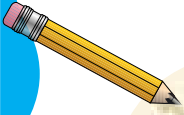

2. How are logs taken out of wetlands and why?
